Profile Summary

I am a B.Tech Computer Science student at Centurion University of Technology and Management with an interest in software development. I enjoy learning and working on both frontend and backend technologies. I have experience with Java, Kotlin, JavaScript, and frameworks like react and Spring Boot through projects and coursework. I am motivated to learn, grow, and build practical development skills as a fresher.

Education

Centurion University of Technology and Management

B.Tech in Computer Science (CGPA: 8.94)

2022 – Present

Bhubaneswar, Odisha

BCET Higher Secondary School

Higher Secondary (Percentage: 76%)

2020 – 2022

Balasore, Odisha

Umamani Uchha BidyaPitha

Matriculation (Percentage: 60%)

2010 – 2020

Balasore, Odisha

Technical Skills

Programming Languages: Java, SQL, JavaScript, C

Backend Technologies: Spring Boot (Basics), RESTful APIs, MVC Architecture

Frontend Technologies: React.js, HTML5, CSS3

Databases: MySQL, MongoDB

Tools & Platforms: Git, GitHub, Maven, Postman

Projects

Hotel Management System | Java

Oct 2024

- Developed a Java-based application to manage hotel bookings, customer records, and billing operations.
- Implemented core business logic using OOP principles such as abstraction, inheritance, and encapsulation.
- Designed modular components to improve maintainability and scalability.

Chat Application | MERN Stack

May 2025

- Designed and developed RESTful APIs for real-time chat functionality.
- Implemented JWT-based authentication and secure user session management.
- Tested and validated APIs using Postman and handled backend debugging.

Personal Portfolio | React.js

Nov 2024

- Built a responsive portfolio website using React functional components and hooks.
- Focused on UI consistency, performance optimization, and reusable components.

Healthcare App | Kotlin

Oct 2024

- Developed an Android application for managing health records using SQLite for offline persistence.

Certifications

GeeksforGeeks – Data Structures and Algorithms (2024)

SAP Certified Back-End Developer – ABAP Cloud (2024)

ABAP RESTful Application Programming Model (RAP) (2025)

Achievements

Completed multiple full-stack and backend-focused projects demonstrating end-to-end development skills. Participated in team-based projects following Agile practices and version control workflows.
